THE CAWTHON HOTEL

Under Management of George B. Hervey.

One of the Modern Sky-Scrapers of the Day

THE VINEYARD is a feature of the Cawthon. It is located on the seventh floor, which gives the diner a complete view of the city and bay for a distance of ten miles, and this, with the inspiring music during the meal, presents a scene which Dreamland alone affords. The cuisine of The Cawthon is already known throughout the country, and the traveling public is the best testimonial of its excellence.

The Cawthon is Located in Mobile's Ideal Paradise--Opposite Bienville Square
Where Nature's own health remedy--ozone--is wafted from the gulf stream, presenting an opportunity for the delicate guests and weary travelers unsurpassed by any other hostelry in the South.
